To Whom It May Concern:

RE: DMS MECHANICAL LTD.

Dear Sir/Madam:

It is a pleasure for me to recommend to you DMS Mechanical Ltd. as a very experienced and competent Mechanical Company.

As a General Contractor our relationship with DMS Mechanical Ltd. goes back a number of years during which we have worked together.

We have come to know that DMS Mechanical Ltd. is a very capable and professional company always concerned with getting the job done RIGHT!!!

DMS Mechanical Ltd. was the Mechanical Company on Parcel Two at Olympic Village in Vancouver, who also assisted in the design and all of the supply and installation. This included the HVAC, Plumbing and Fire Protection, all to the LEEDS ® Gold Standards with a Total Floor Area of 252,000 square feet and two hundred and twelve (212) Suites.

Another notable project they worked on was the L'Hermitage on Robson in Vancouver, that included a Hotel, IGA, HomeSense and a twenty-eight (28) storey Condominium Tower with two hundred and ninety (290) Suites including Social Housing.

We have found their jobs to be well run with a high standard of workmanship demanded throughout. We have been completely satisfied with the professionalism that DMS Mechanical Ltd. has displayed.

We have every reason to believe that DMS Mechanical Ltd. will continue their established reputation as a respected professional mechanical company and I have no hesitation in recommending them to you.

Yours truly,
METRO-CAN CONSTRUCTION LTD.

Mark Macaulay
Director Construction
