Re: Reference Letter
DMS Mechanical Ltd.

TO WHOM IT MAY CONCERN;

Over the past 10 years DMS Mechanical Ltd. under the leadership of Reno Mauro, has successfully completed mechanical systems for many of Stuart Olson's projects, two in particular, the Waterstone Pier and the Versanté Towers. DMS Mechanical Ltd. were used at the very onset of design to assist the consultants with current market conditions and leading edge technology.

DMS Mechanical Ltd. demonstrated very quickly their ability to work as a team. They brought to the table practical and affordable solutions and were always fair and hard working. Many potential problems were averted due to their focus on the project and paying attention to detail. On the jobsite we found them easy to work with and pushed the schedule to gain maximum productivity while at the same time cooperating with a happy crew.

We have genuine respect for all their accomplishments and are pleased to recommend DMS Mechanical Ltd. for any residential or commercial project.

Sincerely,

Stuart Olson Constructors Inc.

JIM GIBSON
OPERATIONS MANAGER
